

LAURASTAR G7

innovative 3D soleplate for
unparalleled ironing quality
and performance

LAURASTAR[®]
You deserve the best.

LAURASTAR expertise at your service

The Swiss company LAURASTAR invented the system of professional ironing for private use in 1986. Since then, almost 2 million users in over 40 countries worldwide have enjoyed quality ironing on a daily basis.

30 years on, LAURASTAR has become the benchmark for innovative, high-quality ironing systems. LAURASTAR views this position of world leader as a responsibility which you, the consumer of our appliances, confer on us.

Every day, the LAURASTAR engineers, designers and employees work towards improving products and services so that we live up to our promise of making life easier for you in your everyday tasks, thus leaving you more time to spend with your family and friends or for your leisure pursuits.

This is achieved through our research laboratories specialising in ironing and our capable customer service experts who can offer extensive, personalised advice. Lastly, we develop products for the LAURASTAR label that meet your actual needs and come equipped with international technological innovations, backed by the Swiss-made quality guarantee.

As you browse these pages, we invite you to explore the LAURASTAR G7 steam generator, part of the LAURASTAR ii™ – INTELLIGENT INNOVATIONS programme and equipped with new patented 3Dii™ technology.

Sincerely,

Your LAURASTAR team

LAURASTAR G7

the 3D soleplate eliminates creases
in one single movement

3Di™ – ACTIVE SOLEPLATE

NEW – Three-dimensional active soleplate, for unparalleled ironing quality in a single movement.

AQUA FILTER

Scale filter – ordinary water can be used and the iron's service life is extended.

CONSTANT PRESSURE

A constant pressure of 3.5 bars produces 200 litres of steam volume per minute – the result is professional ironing quality.

PERMANENT IRONING

Removable 1-litre reservoir – uninterrupted ironing without waiting.

FAST HEATING TIME

Super fast heating time in three minutes for immediate use.

LiIGHT™ – LIGHT-WEIGHT PROFESSIONAL IRON

NEW – The first lightweight professional iron that is more comfortable and less tiring to use.

CLiICK™ – INTUITIVE AUTOMATIC STEAM

Intelligent, intuitive function of the automatic steam for effortless ironing twice as fast.

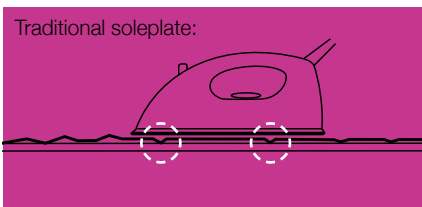

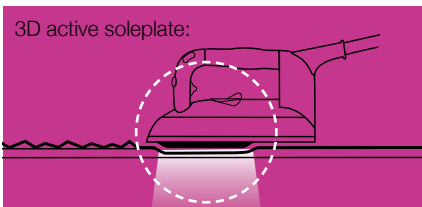

DOUBLE VOLUME

Double volume of extra fine steam, for a lasting result leaving no damp traces.

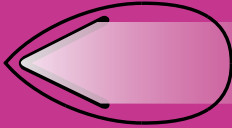

world first: 3Dii™ – ACTIVE SOLEPLATE

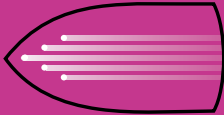

The LAURASTAR G7 three-dimensional active soleplate performs two actions with every movement of the iron:

1. The raised part of the soleplate instantly makes the fabric taut and ready to be ironed to perfect result, eliminating any creases and bubbling caused by the washing and drying process.

3D active soleplate:

Traditional soleplate:

2. Steam is injected evenly onto the entire surface of the soleplate, penetrating all the fibres.

The unique benefits of 3Dij™ technology are as follows:

- **Unparalleled, smooth ironing quality**
- **Ultra-rapid ironing in one single movement**

life is more beautiful with the LAURASTAR G7

No more need to push a button, it manages the steam all by itself.

The SOFTPRESSING soleplate means being able to iron even your most delicate fabrics.

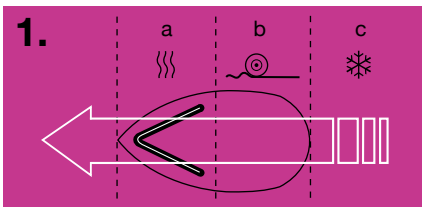

Thanks to its integrated AQUA G-LINE filter, you only need to use tap water.

It guarantees you a perfect look.

LAURASTAR professional ironing

PROFESSIONAL SOLEPLATE

The LAURASTAR professional soleplate is designed for cold ironing. It includes the following three steps in ironing: (a) heating, (b) smoothing and (c) cooling the fabric. The fibres are thus fixed in a single movement for a lasting result.

EXTRA FINE STEAM

The steam is diffused at a constant pressure which produces 200 litres of steam per minute, as recommended by ironing professionals. Heated once in the boiler, the steam is cooled and then reheated inside the iron: this is the unique LAURASTAR double volume steam.

LAURASTAR G7

innovative 3D soleplate for **unparalleled ironing quality and performance**

LAURASTAR[®]
You deserve the best.

Iron	lightweight, 3D active soleplate, automatic steam
Steam pressure	3.5 bars (double volume)
Steam droplets	extra fine
Ironing time	unlimited
Heating time	approx. 3 minutes
Water tank capacity	removable, 1 litre
Iron rest position	tilted
Electric cable	approx. 3 m
Dimensions (L x W x H)	24 x 41 x 28 cm
Power appliance	2200 W
Total weight	approx. 7 kg
Storage of iron	iron holder

Accessories included

SOFTPRESSING (3D) soleplate
AQUA G-LINE integrated filter + 1 AQUA REFILL refill
HOLDER G-LINE cable holder
